永轩集团发展的源动力

TECHNICAL INNOVATION

创新的本质是突破，
即突破旧的思维定式和常规戒律。
永轩集团从客户需求出发，
创新产品品质和应用场景。

The essence of innovation is breakthrough,
Breaking out of old thinking patterns and conventional precepts.
Yongxuan Group technology starts from customer demand,
Innovate product quality and application scenarios.

ALBUMS CONTENTS

目录

诚实守信是永轩建基立业的根本；服务导向是永轩发展壮大的支撑；
以人为本是永轩价值创造的宗旨；创新发展是永轩迎接挑战的动力。

Honesty and trustworthiness are the fundamental basis for Yongxuan to establish its business;
Service orientation is the support for the development and growth of Yongxuan;
Putting people first is the purpose of Yongxuan's value creation;
Innovative development is the driving force for Yongxuan to meet challenges.

CHAIRMAN MESSAGE

董事长 寄语

Time flies, but the journey is still new. Yongxuan has been deeply involved in the nano plastic materials industry in the Pearl River Delta for more than 20 years, experiencing hardships and glory, always adhering to its original intention and pursuing uniqueness. With the spirit of self-improvement, we have won a place in the Chinese economic wave. In April 2021, we moved into the self built industrial park in Lianzhou and established the group headquarters.

Since 2013, we have obtained management system certifications such as ISO9001, ISO14001, ISO45001, and established big data information systems such as ERP/OA for business management, CRM for operation and maintenance services, and PLM for product lifecycle management to support the rapid development of enterprises. At present, the strategic plan for the next five years of the enterprise has gradually become clear. We will firmly implement it, build a strong R&D team, transform the marketing system, establish a data-driven information control system, guide collaborative supply chains, build a learning organization, reshape the Yongxuan Iron Army team, and create an excellent corporate culture.

Global integration is accelerating change, and we deeply understand that if we do not advance, we will fall behind. The future competition lies in technological innovation, management strength, and sustainable development capability. We can only move forward by constantly surpassing ourselves. To explore the distant direction, to explore the unknown, and to pursue a better life, never cease. In this rapidly changing era, we must maintain confidence, perseverance, and original intention, and drive progress with a positive and creative mindset.

I am full of confidence in the future and firmly believe that in the near future, we will share fruitful results. The growth of Yongxuan cannot be separated from the care of friends from all walks of life, the encouragement of industry experts, the trust of customers, and the solidarity of colleagues. We are forever grateful for this.

岁月匆匆，历程犹新。永轩在珠三角纳米塑胶材料行业深耕二十余载，历经艰辛与辉煌，始终坚守初心，追求独特。我们以自强不息的精神，于中国经济浪潮中搏得一席之地，2021年4月迁入连州自建工业园，成立集团总部。

自2013年起，我们已通过ISO9001、ISO14001、ISO45001等管理体系认证，并建立经营管理ERP/OA、运维服务CRM、产品生命周期管理PLM等大数据信息系统支撑，助力企业快速发展。目前，企业未来五年战略规划已渐清晰，我们将坚定落实，打造强大研发团队，变革营销系统，建立数据化信息管控体系，引导协作供应链，构建学习型组织，重塑永轩铁军团队，铸就卓越企业文化。

全球一体化加速变革，我们深知不进则退。未来竞争在于技术创新、管理实力及持续发展能力。我们唯有不断超越自我，方能前行。对远方向往，对未知探索，对美好生活追求，永恒不息。在这个瞬息万变的时代，我们要保持信心、恒心与初心，以积极创造的思维推动进步。

我对未来充满信心，坚信不久的将来，我们将共享丰硕成果。永轩的成长离不开各界友人的关心、行业专家的鼓励、客户的信赖及同事们的同舟共济。对此，我们永怀感恩。

Yongxuan New Materials Group Co., Ltd. (formerly Dongguan Yongxuan Plastic Materials Co., Ltd.) was established in 2006 and moved to a self built industrial park in Lianzhou City, Qingyuan, Guangdong Province in June 2021, officially establishing the headquarters of Yongxuan Group. The company is a large-scale manufacturing enterprise that integrates research and development, production, and sales. It

cooperation project with the polymer R&D team of South China University of Technology (Academician Zhai Jinping's team), dedicated to the research and development of special modified polymers. The first phase of the industrial park has nearly 50000 square meters of modern factory buildings with an annual production capacity of over 200000 tons. The branch has expanded nationwide and has successfully operated in Dongguan, Foshan, Jiangsu, Zhejiang and other places. The Sichuan and Hubei branches are about to be established.

BUSINESS PHILOSOPHY

集团理念

ISO 9001:2015

ISO 14001:2015

ISO 45001:2018

国家高新技术企业

企业宗旨：以人为本，诚信务实，创新进取，回报社会。

核心价值观：质量是产品的灵魂，产品是企业的灵魂，用心去做让用户感动的产品。

团队理念：目标同向，负重领先，默契信任，风险共担。

人才理念：人适其位，位适其人，只要能够为企业努力工作，积极奉献，就是企业需要的人才。

企业愿景：成就自我，奉献社会。

Enterprise purpose:

Putting people first, being honest and pragmatic, innovating and enterprising, and giving back to society.

Core values:

Quality is the soul of the product, and the product is the soul of the enterprise. We strive to create products that move users with our hearts.

Team philosophy:

Goal oriented, leading with weight, tacit trust, and risk sharing.

Talent concept:

People are suitable for their positions, and positions are suitable for their people. As long as they can work hard and actively contribute to the enterprise, they are the talents that the enterprise needs.

Corporate Vision:

Achieve oneself and contribute to society.

PRODUCTION STRENGTH

生产实力

公司拥有国内最先进的碳酸钙粉体立磨生产线5条，环辊磨生产线3条，雷蒙机生产线2条，年生产优质碳酸钙粉30万吨。造粒车间拥有双螺杆、三螺杆与连续密炼机等生产线28条，年生产能力超过20万吨。

公司已通过了ISO9001、ISO14001、ISO45001等管理体系认证，并建立经营管理ERP/OA、运维服务CRM、产品生命周期管理PLM等大数据信息系统支撑。一流的现代化厂房和品质管控系统，强大的研发和制造团队为产品的研发、生产、交付及售后服务提供了强有力的保证！

The company has 5 domestically advanced vertical grinding production lines for calcium carbonate powder, 3 circular grinding production lines, and 2 Raymond machine production lines, producing 300000 tons of high-quality calcium carbonate powder annually. The granulation workshop has 28 production lines including twin-screw, triple screw, and continuous mixing machines, with an annual production capacity of over 200000 tons.

The company has obtained quality management system certifications such as ISO9001, ISO14001, and ISO45001, and has established big data information systems such as ERP/OA for business management, CRM for operation and maintenance services, and PLM for product lifecycle management. A first-class modern factory and quality control system, as well as a strong R&D and manufacturing team, provide strong guarantees for the research and development, production, delivery, and after-sales service of products!

DEVELOPMENT HISTORY

发展历程

2006年03月 集团首家工厂创立

永轩集团首家工厂——东莞市永达塑胶有限公司创立。
Yongxuan Group's first factory - Dongguan Yongda Plastic Co., Ltd. was established.

2009年05月 规模扩大

工厂规模扩大，搬迁至道滘镇，成立东莞市永轩塑胶材料有限公司。
The factory has expanded its scale and relocated to Daojiao Town, establishing Dongguan Yongxuan Plastic Materials Co., Ltd.

2012年04月 扩大规模

并在万江区购置厂房，之前搬迁六次急剧扩大规模，搬迁至万江。
And purchased a factory building in Wanjiang District, which had been relocated six times before and rapidly expanded in scale, and relocated to Wanjiang.

2014年08月 分厂设立

设立广东永轩纳米塑料有限公司的第二分厂设立昆山市广长源塑胶材料有限公司。
Establish the second branch of Guangdong Yongxuan Nanoplastic Co., Ltd. and establish Kunshan Guangchangyuan Plastic Materials Co., Ltd.

2016年06月 分公司创立

成立东莞市超顺企业管理服务公司，后更名为东莞市创隆集团注册托管有限公司。
Established Dongguan Chaoshun Enterprise Management Service Company, later renamed Dongguan Chuanglong Cluster Registration and Custody Co., Ltd.

2018年03月 咨询管理合作

为企业战略发展和经营管理升级提供了最有力保障，与知名管理咨询机构天机签订长期合作框架协议。
Provided the strongest guarantee for the strategic development and management upgrade of the enterprise, signed a long-term cooperation framework agreement with well-known management consulting firm Tianji.

2019年01月 集团工业园奠基

总投资超过5亿元，占地142亩的自建工业园开始动工，举行永轩集团自建连州工业园奠基仪式。
The self built industrial park covering 142 acres with a total investment of over 500 million yuan has started construction, and the groundbreaking ceremony for Yongxuan Group's self built Lianzhou Industrial Park has been held.

2021年06月 连州基地开启

正式从东莞万江区正式迁入连州工业园，成立广东永轩纳米塑胶材料有限公司。
Formally relocated from Wanjiang District, Dongguan to Lianzhou Industrial Park and established Guangdong Yongxuan Nano Plastic Materials Co., Ltd.

2021年06月 营销中心创建

为满足快速发展需要，成立佛山粉体营销中心。
To meet the needs of rapid development, Foshan Powder Marketing Center has been established.

2021年10月 分公司创立

专业生产并销售连州与衡阳土特产，成立连州市永轩农业发展有限公司。
We specialize in producing and selling local specialties from Lianzhou and Hengyang, and have established Lianzhou Yongxuan Agricultural Development Co., Ltd.

2022年03月 研发合作

与国内知名的华南理工大学高分子聚合物研发团队与翟金平院士团队签订长期研发合作项目。
Signed a long-term research and development cooperation project with the well-known polymer R&D team of South China University of Technology and the team of Academician Zhai Jinping in China.

2022年08月 分公司创立

成本和时间的把控为客户提供了更有力的服务保障，成立广州市九九物流连州分公司。
Cost and time control have provided customers with stronger service guarantees, and Guangzhou Jiujiu Logistics Lianzhou Branch has been established.

2022年09月 集团公司创立

成立广东永轩集团。
为集团营销模式的转型升级夯实基础，成立广东永轩信息传媒有限公司。
Establish Guangdong Yongxuan Group.
To lay a solid foundation for the transformation and upgrading of the group's marketing model, Guangdong Yongxuan Information Media Co., Ltd. was established.

2022年12月 分公司设立

设立传统工艺工厂属于国家级非物质文化遗产，成立湖南湘江米粉产业有限公司。
The establishment of a traditional craft factory is a national intangible cultural heritage, and Hunan Zhajiang Rice noodles Industry Co., Ltd. was established.

2023年01月 分公司创立

宣传湖南老字号的家乡美食，布局全国性连锁运营，成立渣江米粉连锁（广东）有限公司。
Publicize the hometown food of Hunan time-honored brands, arrange nationwide chain operation, and set up Zhajiang Rice noodles Chain (Guangdong) Co., Ltd.

2024年04月 规模扩大

工业园区二期完工投产，集团实力进一步夯实。
The second phase of the industrial park has been completed and put into operation, further consolidating the strength of the group.

未来

我们依然在前行的路上！
We are still on the road ahead!

开拓的脚步一直向前！

The footsteps of exploration keep moving forward!

一路走来，感谢所有同仁的不离不弃，回首过去、展望未来，我们一直在不断地接受挑战并从中得到成长。
Along the way, thank you to all colleagues for their unwavering support. Looking to the future, we will keep growing by meeting the various challenges in our paths.

TECHNICAL
INNOVATION
Technical innovation as the power
of YONGXUAN growth

| Cast Film

| 流延膜

产品概述 / Product Overview

◆ 流延膜填充料有耐高温，流动性稳定，添加比例高。

◇ The filling material for the casting film has high temperature resistance, stable flowability, and high addition ratio.

产品特点 / Product Features

- ◆ 分散均匀；
- ◆ 耐高温，使用全进口助剂；
- ◆ 可提高生产量，提升制品成品率；
- ◆ 添加比例10%-50%。

- ◇ Uniform dispersion,
- ◇ High temperature resistance, using fully imported additives,
- ◇ Can increase production volume and improve product yield,
- ◇ Addition ratio of 10% -50%.

产品应用 / Product Application

| Membrane Coating

| 淋膜

产品概述 / Product Overview

◆ 淋膜填充料有耐高温，流动性稳定，添加比例高。

◇ The film filling material has high temperature resistance, stable flowability, and high addition ratio.

产品特点 / Product Features

- ◆ 分散均匀；
- ◆ 耐高温，使用全进口助剂；
- ◆ 可提高生产量，提升制品成品率；
- ◆ 添加比例10%-50%。

- ◇ Uniform dispersion,
- ◇ High temperature resistance, using fully imported additives,
- ◇ Can increase production volume and improve product yield,
- ◇ Addition ratio of 10% -50%.

产品应用 / Product Application

| Blown Film

| 吹膜

产品概述 / Product Overview

◆ 可为客户量身订做各种吹膜填充，广泛用于 PO/PE/PP 各类胶袋。

◇ We can customize various blown film fillers for customers, widely used in PO/PE/PP plastic bags.

产品特点 / Product Features

- ◆ 光泽度强，手感细腻；
- ◆ 不影响产品拉力；
- ◆ 分散性良好、性能稳定，可提高产品流动性，增加生产量；
- ◆ 添加比例 10%-80%。

- ◇ Strong glossiness, careful hand feel,
- ◇ Does not affect the product's tensile strength,
- ◇ Good dispersibility and stable performance can improve product fluidity and increase production volume,
- ◇ Addition ratio 10% -80%.

产品应用 / Product Application

| PP Hollow Board

| PP中空板材

产品概述 / Product Overview

◆ 中空板填充料能与塑料相容性极好，在制品中分散均匀，能提高制品硬度。

◇ Hollow board filling material has excellent compatibility with plastic, is evenly dispersed in the product, and can improve the hardness of the product.

产品特点 / Product Features

- ◆ 产品性能稳定，分散性良好；
- ◆ 能提高制品硬度；
- ◆ 提高产品的光泽度；
- ◆ 添加比例 20%-70%。

- ◇ The product has stable performance and good dispersibility,
- ◇ Can improve the hardness of the product,
- ◇ Improve the glossiness of the product,
- ◇ Addition ratio of 20% -70%.

产品应用 / Product Application

| Plastic Sheet

| 塑胶片材

产品概述 / Product Overview

◆ 片材填充母料是一种以各种纯原料为载体的白色微米级碳酸钙母料，碳酸钙目数由用户使用效果确定，本厂使用子母机生产，有良好的分散性、稳定性与各类产品更完美的结合，使表面更加光亮。

◇ Sheet filling masterbatch is a white micron sized calcium carbonate masterbatch that uses various pure raw materials as carriers. The mesh size of calcium carbonate is determined by the user's usage effect. Our factory uses a mother and child machine for production, which has good dispersibility, stability, and perfect combination with various products, making the surface more shiny.

产品特点 / Product Features

- ◆ 降低产品的成本，提高生产效率，获得良好的经济效益；
- ◆ 专制填充料可增强产品的韧性和刚性；
- ◆ 分散性良好，能与客户产品紧密结合；
- ◆ 添加比例10%-50%。

- ◇ Reduce product costs, improve production efficiency, and achieve good economic benefits,
- ◇ Autocratic fillers can enhance the toughness and rigidity of products,
- ◇ Good dispersibility, able to closely integrate with customer products,
- ◇ Add a ratio of 10% -50%.

| Plastic Pipes

| 塑胶管材

产品概述 / Product Overview

◆ 淋膜填充料有耐高温，流动性稳定，添加比例高，广泛用于牛皮纸覆膜，管道等产品应用。

◇ The coating filling material has high temperature resistance, stable flowability, high addition ratio, and is widely used in kraft paper coating, pipeline and other product applications.

产品特点 / Product Features

- ◆ 分散均匀；
- ◆ 耐高温，使用全进口助剂；
- ◆ 可提高生产量，提升制品成品率；
- ◆ 添加比例10%-50%。

- ◇ Uniform dispersion,
- ◇ High temperature resistance, using fully imported additives,
- ◇ Can increase production volume and improve product yield,
- ◇ Addition ratio of 10% -50%.

| Plastic Blow Molding

| 塑胶吹塑

产品概述 / Product Overview

◆ 吹瓶填充料是经过本公司多年来的生产经验，具有耐摔性，硬度强，韧性高，光泽度高。

◆ 适应于各类化妆品瓶、药瓶、洗洁精瓶等。

◇ Blowing bottle filling material is a product that has been produced by our company for many years, with high drop resistance, strong hardness, high toughness, and high glossiness.

◇ Suitable for various types of cosmetic bottles, medicine bottles, detergent bottles, etc.

- ◇ Strong glossiness, careful hand feel, high toughness, and strong hardness,
- ◇ Good dispersibility, no black spots or impurities,
- ◇ Increase liquidity,
- ◇ Addition ratio of 10% -50%.

产品特点 / Product Features

- ◆ 光泽度强，手感细腻，韧性高，硬度强；
- ◆ 分散性好，没有黑点杂质；
- ◆ 增加流动性；
- ◆ 添加比例10%-50%。

| Plastic Injection Molding

| 塑胶注塑

产品概述 / Product Overview

◆ 注塑填充料有耐高温，流动性稳定，添加比例高，广泛用于电子配件、托盘、玩具等产品应用。

◇ Injection molding fillers have high temperature resistance, stable flowability, and high addition ratios, and are widely used in electronic accessories, trays, toys, and other product applications.

产品特点 / Product Features

- ◆ 分散均匀；
- ◆ 耐高温，使用全进口助剂；
- ◆ 可提高生产量，提升制品成品率；
- ◆ 添加比例10%-50%。

- ◇ Uniform dispersion,
- ◇ High temperature resistance, using fully imported additives,
- ◇ Can increase production volume and improve product yield,
- ◇ Addition ratio of 10% -50%.

Plastic Wire Drawing

塑胶拉丝

产品概述 / Product Overview

◆ 无纺布填充料是纺粘无纺布专用的改性争强填充功能母料，该产品与无纺布原料聚丙烯相容性极好，能够降低材料的熔融粘度和纺丝温度，减少短丝，不堵丝板，容易纺丝，符合欧盟环保要求，同时可以大幅度降低产品的原料成本，为企业带来可观的经济效益。

◇ Non woven fabric filling material is a modified and strong filling functional masterbatch specifically designed for spunbond non-woven fabrics. This product has excellent compatibility with non-woven fabric raw material polypropylene, which can reduce the melting viscosity and spinning temperature of the material, reduce short fibers, avoid clogging the fiber board, and is easy to spin, meeting EU environmental requirements. At the same time, it can significantly reduce the raw material cost of the product, bringing considerable economic benefits to enterprises.

Flame retardant masterbatch

阻燃母料

产品概述 / Product Overview

◆ 阻燃母料是一种高效功能性母料，由阻燃剂等多种成分复配而成。可添加于多种塑料中，通过吸热、覆盖、抑制自由基等机制，赋予材料良好阻燃性能，提升其安全等级。

◇ Flame retardant masterbatch is an efficient functional masterbatch composed of multiple components such as flame retardants. Can be added to various plastics, endowing the material with good flame retardant properties and improving its safety level through mechanisms such as heat absorption, coverage, and inhibition of free radicals.

Natural Anhydrous Calcium Sulfate Functional Masterbatch

天然无水硫酸钙功能母粒

产品概述 / Product Overview

◆ 天然无水硫酸钙功能母粒，以天然优质无水硫酸钙为核心成份。能有效改善塑料制品性能，提升加工流动性、增强机械强度，广泛应用于食品包装、卫生用品等领域，助力产品品质升级。

◇ Natural anhydrous calcium sulfate functional masterbatch, with natural high-quality anhydrous calcium sulfate as the core component. It can effectively improve the performance of plastic products, enhance processing fluidity, strengthen mechanical strength, and is widely used in fields such as food packaging and hygiene products, helping to upgrade product quality.

Biodegradable PBAT Blown Film Material

生物降解PBAT吹膜料

产品概述 / Product Overview

◆ 生物降解 PBAT吹膜料，以PBAT为主要原料，兼具良好的成膜性与热稳定性。吹制的薄膜柔韧性佳、透明度高，且能在自然环境中被微生物分解，环保性能卓越。

◇ Biodegradable PBAT blown film material, using PBAT as the main raw material, has both good film-forming properties and thermal stability. The blown film has excellent flexibility, high transparency, and can be decomposed by microorganisms in natural environments, with outstanding environmental performance.

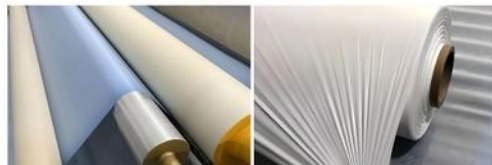

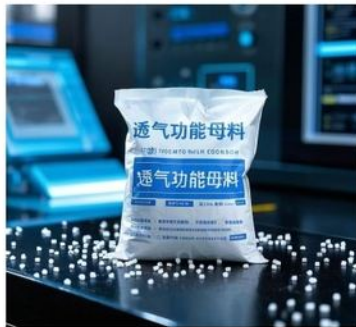

| Breathable functional masterbatch

| 透气功能母料

产品概述 / Product Overview

◆ 透气功能母料，以聚烯烃为基体，添加特殊助剂制成。经加工后可在制品中形成微孔或通道，赋予良好透气性能，广泛用于包装、医疗、卫生用品等领域。

◇ Breathable functional masterbatch, made with polyolefin as the matrix and added with special additives. After processing, micropores or channels can be formed in the product, endowing it with good breathability and widely used in packaging, medical, hygiene products and other fields.

| Photooxidative Degradation Masterbatch

| 光氧降解母粒

产品概述 / Product Overview

◆ 光氧降解母粒是一种环保型母粒，由无机粉、光降解剂等组成。可添加到塑料中，在光和氧的作用下分解出自由基，使聚合物降解，有效减轻环境污染。

◇ Photooxidative degradation masterbatch is an environmentally friendly masterbatch composed of inorganic powder, photodegradation agent, etc. It can be added to plastics to decompose free radicals under the action of light and oxygen, causing polymer degradation and effectively reducing environmental pollution.

| Calcium Carbonate Powder

| 碳酸钙粉

产品概述 / Product Overview

◆ 重质碳酸钙，简称重钙，是由天然碳酸盐矿物，如方解石、大理石、石灰石磨碎而成。是常用的粉状无机填料，具有化学纯度高、惰性大、不易化学反应、热稳定性好、在400℃以下不会分解、白度高、吸油率低、折光率低、质软、干燥、不含结晶水、硬度低磨耗值小、无毒、无味、无臭、分散性好等优点。

◆ Heavy calcium carbonate, abbreviated as heavy calcium, is made by grinding natural carbonate minerals such as calcite, marble, and limestone. It is a commonly used powdered inorganic filler, which has the advantages of high chemical purity, high inertness, low chemical reaction resistance, good thermal stability, no decomposition below 400 °C, high whiteness, low oil absorption, low refractive index, soft texture, dryness, no crystalline water, low hardness, low wear value, non-toxic, tasteless, odorless, and good dispersibility.

◆ 连州拥有丰富的优质碳酸钙矿石和石灰石矿石等优质资源，为生产高品质的重质碳酸钙提供了坚实的原料基础。其钙含量普遍超过97%，确保了产品的高纯度和优良性能。

◆ Lianzhou has abundant high-quality resources such as calcium carbonate ore and limestone ore, providing a solid raw material foundation for the production of high-quality heavy calcium carbonate. Its calcium content generally exceeds 97%, ensuring high purity and excellent performance of the product.

◆ 公司引进了先进的生产设备和工艺，如密封厂房、鄂式破碎机、锤式破碎机等，建立了5条立磨自动化生产线，并且，公司扩建的二期厂房，建立环辊磨生产线3条，雷蒙机生产线2条，同时，公司严格把控生产流程，从优质矿石精选到先进工艺研磨，每一个环节都有严格的质量检测，保证产品批次间的稳定性。目前，公司具备年产20多万吨重质碳酸钙的生产能力能够满足不同客户的需求。

◆ The company has introduced advanced production equipment and processes, such as sealed workshops, jaw crushers, hammer crushers, etc., and established 5 vertical mill automation production lines. In addition, the company has expanded its Phase II workshop to establish 3 ring roller mill production lines and 2 Raymond mill production lines. At the same time, the company strictly controls the production process, from high-quality ore selection to advanced process grinding, every link has strict quality testing to ensure the stability between product batches. At present, the company has an annual production capacity of over 200000 tons of heavy calcium carbonate to meet the needs of different customers.

◆ 公司的产品种类丰富，涵盖了各种规格的重质碳酸钙粉体，从200目到3000目等，产品具有明显的补强增白作用，且易加工成本低廉，广泛应用于造纸、塑料、橡胶涂料、建筑材料等行业。

◆ The company has a wide range of products, covering various specifications of heavy calcium carbonate powder, from 200 mesh to 3000 mesh, etc. The products have obvious reinforcement and whitening effects, and are easy to process with low costs. They are widely used in industries such as papermaking, plastics, rubber coatings, and building materials.

产品应用 / Product Application

PRODUCT APPLICATION

产品行业应用

永轩新材料产品广泛应用于诸多行业和领域：薄膜胶袋、食品包装、化妆品包装、快递包装、电器行业、五金塑胶、电子行业、建筑材料、灯饰配件、管道制品、医药制品、交通设施、运动器材、玩具、无纺布等行业。

Yongxuan New Materials products are widely used in many industries and fields: film bags, food packaging, cosmetics packaging, express packaging, electrical industry, hardware and plastic, electronics industry, building materials, lighting accessories, pipeline products, pharmaceutical products, transportation facilities, sports equipment, toys, non-woven fabrics and other industries.

INDUSTRY EMPOWERMENT, WIDELY USED

行业赋能 应用广泛

WIN-WIN COOPERATION

合作共赢

永轩集团与中山大学阮文红教授团队达成研发合作

以富有自身特色的品质化服务，树立永轩集团影响力和美誉度！

永轩集团，兼具思辨者的明晰和思想者的深邃，以智慧演绎创想的高度，以行动成就想象的力量，愿与广大客户携手同行，共创美好未来！

Based on demand, cooperate and collaborate

立足需求 合作协同

Establish the influence and reputation of Yongxuan Group with high-quality services that are rich in its own characteristics! YONGXUAN Group combines the clarity of a thinker with the depth of a thinker, using wisdom to interpret the heights of creativity and action to achieve the power of imagination, We are willing to work hand in hand with our customers to create a better future together!

CORPORATE VISION

企业愿景

产品创新

在追求创新的道路上，永轩始终坚定不移。每年，公司都会专门调配大量资金用于新产品研发，并逐年增加，致力于打造行业领先的产品和技术。

营销创新

坚持打造多元化销售平台，坚持打造规范化营销体系，坚持打造一流的销售虎狼团队！

管理创新

采取稳步推进方式，不断深化企业管理体系建设，信息化，流程化，和制度化完善。不断深化企业团队结构打造，利益分配机制，绩效考核机制，及培训和职业晋升机制。

文化创新

企业文化将大力倡导：将忠诚于企业，服务于企业，以企业利益为大局，坚持个人利益与企业发展休戚相关的就业理念深入骨髓；打造全体人员建立企业产品质量就是打造民族尊严的使命感！将团结、协作、学习、友爱、进步的价值观深入全体人员的灵魂！

回馈社会

明确公司核心理念，做好理念宣讲，营造和谐文化氛围，增强企业凝聚力。提高全体员工认知水平，促进人格素养的形成，鼓励大家能承担社会责任和义务。未来，企业也将做出更多表率，积极回馈社会，在公益捐赠、志愿服务、产业帮扶方面尽到绵薄之力。

开拓进取 · 创新服务 · 展望未来
Forge ahead, innovate services, look into the future

Product Innovation

On the path of pursuing innovation, Yongxuan remains steadfast. Every year, the company allocates a large amount of funds specifically for the research and development of new products, and increases year by year, committed to creating industry-leading products and technologies.

Marketing Innovation

Persist in building a diversified sales platform, adhere to building a standardized marketing system, and persist in building a first-class sales team of tigers and wolves!

Management Innovation

Adopting a steady and progressive approach, continuously deepening the construction of enterprise management systems, informatization, process oriented, and institutionalized improvement. Continuously deepen the construction of enterprise team structure, benefit distribution mechanism, performance evaluation mechanism, as well as training and career promotion mechanism.

Cultural Innovation

The corporate culture will vigorously advocate: loyalty to the enterprise, serving the enterprise, taking the interests of the enterprise as the overall situation, and adhering to the employment concept that personal interests are closely related to the development of the enterprise deeply ingrained in the bone marrow; Creating a sense of mission for all personnel to establish the quality of enterprise products is to build national dignity! Deepen the values of unity, collaboration, learning, friendship, and progress into the souls of all personnel!

Give back to Society

Clarify the company's core philosophy, promote the concept, create a harmonious cultural atmosphere, and enhance the cohesion of the enterprise. Improve the cognitive level of all employees, promote the formation of personality traits, and encourage everyone to take on social responsibilities and obligations. In the future, enterprises will also set more examples, actively give back to society, and make their modest efforts in public welfare donations, volunteer services, and industrial assistance.
